## Labour Force Survey: Data for the 1<sup>st</sup> Quarter of 2011

### In the 1<sup>st</sup> quarter of 2011:

- Unemployment rate among persons aged 15 and over – 6.0% (compared with 6.5% in the previous quarter).
- Participation rate in the civilian labour force among persons aged 15 and over – 57.4% (compared with 57.7% in the previous quarter).
- Employment rate<sup>1</sup> among persons aged 15 and over – 54.0% (compared with 53.9% in the previous quarter).
- Unemployment rate among persons aged 25-64 – 5.3% (compared with 5.8% in the previous quarter).
- Participation rate in the civilian labour force among persons aged 25-64 – 75.7% (compared with 76.1% in the previous quarter).
- Employment rate among persons aged 25-64 – 71.7% (same as the previous quarter).
- As of the 3<sup>rd</sup> quarter of 2009 unemployment rate of females is lower than unemployment rate of males.

*The labour force survey is the main source of information regarding the labour force in Israel, and is conducted by the Central Bureau of Statistics on an ongoing basis.*

*In recent years approximately 22,500 persons aged 15 and over have been interviewed every quarter. The survey population includes the permanent population of Israel, as well as tourists and temporary residents living in Israel continuously for one year or more. The survey follows the development of the labour force in Israel, its size and characteristics, the extent of unemployment, etc.*

<sup>1</sup> Employment rate is defined as a percentage of employed persons, calculated of the total population

Written by Mark Feldman, Director of Labour Sector

## Seasonally Adjusted Data

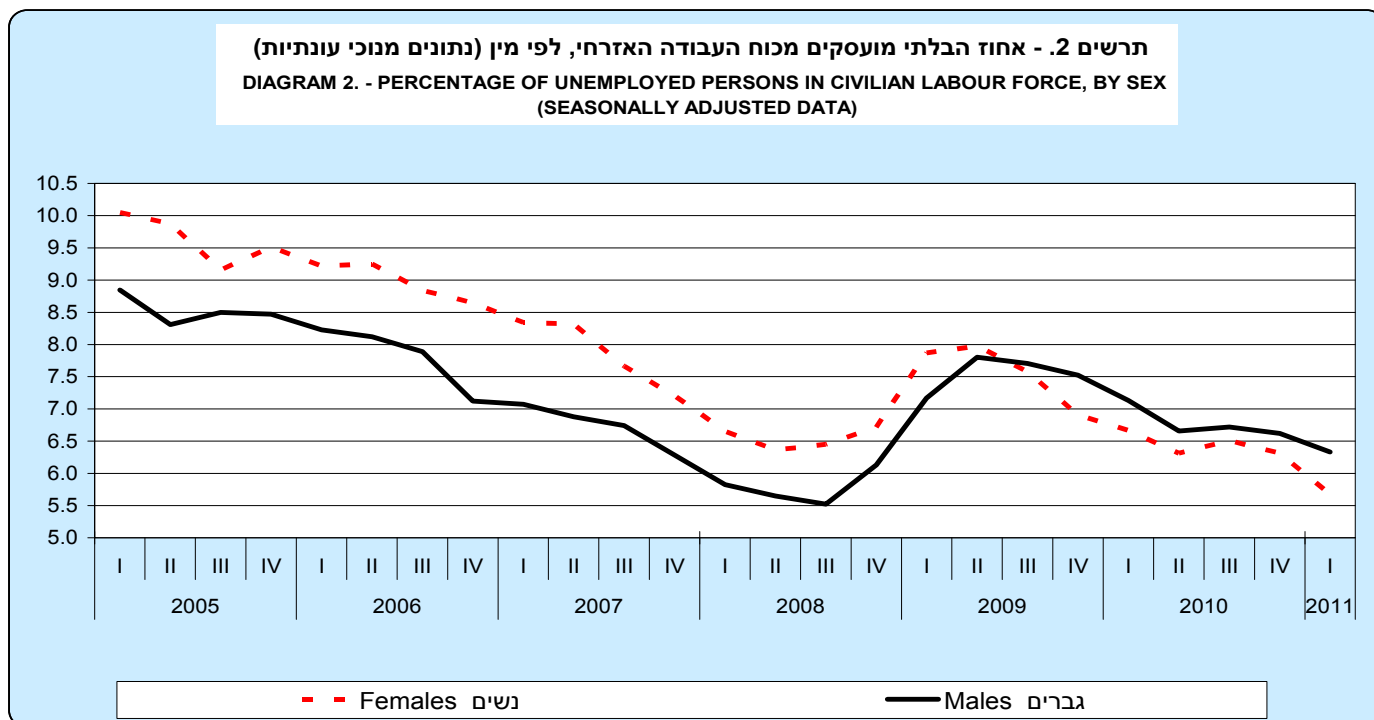

In the 1<sup>st</sup> quarter of 2011 (January-March) the number of persons in the civilian labour force was 3.187 million. Of these, 2.995 million were **employed** and approximately 192,000 were **unemployed**. Among the employed persons, 1.574 million were **males** (1.566 million in the previous quarter), and 1.421 million were **females** (1.414 million in the previous quarter). These figures were published by the Central Bureau of Statistics from the ongoing labour force survey.

The participation rate among persons aged 15 and over in the civilian labour force in the 1<sup>st</sup> quarter of 2011 was 57.4% (57.7% in the previous quarter). Among **males**, the rate reached 62.0% (62.2% in the previous quarter), and among **females** - 53.0% (53.3% in the previous quarter).

The unemployment rate among persons aged 15 and over, out of the total civilian labour force, declined in the 1<sup>st</sup> quarter of the year to 6.0% (compared with 6.5% in the previous quarter). The unemployment rate of **males** declined to 6.3% (compared with 6.6% in the previous quarter), and that of **females** declined to 5.7% (compared with 6.3% in the previous quarter). To be noted that, as of the 3<sup>rd</sup> quarter of 2009 unemployment rate of females is lower than unemployment rate of males (see diagram 2).

It should be remembered that unemployed persons are those who did not work for even one hour during the determinant week, and who actively sought work during the preceding four weeks by registering with the Labour Exchange or by application to employers, either in person or in writing, etc., and who could have started working in the determinant week, had suitable work been offered.

Among persons aged 25-64 the participation rate in the civilian labour force declined to 75.7% in the 1<sup>st</sup> quarter of 2011 (compared with 76.1% in the last quarter of 2010). Among **males** the rate declined to 81.4% (compared with 81.9% in the previous quarter), and among **females** the rate declined to 70.1% (compared with 70.5% in the previous quarter).

Among persons aged 25-64 the unemployment rate declined in the 1<sup>st</sup> quarter of 2011 to 5.3% (compared with 5.8% in the previous quarter). It declined to 5.6% among **males** (compared with 6.1% in the previous quarter), and to 5.0% among **females** (compared with 5.4% in the previous quarter).

The number of employed persons in the 1<sup>st</sup> quarter of 2011 rose to 2.995 million (compared with 2.980 million in the last quarter of 2010), a rise of 4.1% compared with the parallel quarter last year.

The number of **employed persons who worked full time (35 hours and over) in the determinant week** increased by 1.6%, compared with the previous quarter (an addition of approximately 32,000 employed persons); whereas the number of **employed persons who worked part time (less than 35 hours) in the determinant week** declined by 2.1%, compared with the previous quarter (a decline of approximately 17,000 employed persons).

**The employment rate** (calculated as the percentage of employed persons out of the entire population) **among persons aged 15 and over** reached 54.0% in the 1<sup>st</sup> quarter of 2011 (compared with 53.9% in the last quarter of 2010). The employment rate among **males** reached 58.1% (same as the previous quarter). The employment rate among **females** reached 50.0% (same as the previous quarter). Among **persons aged 25-64** the employment rate remained unchanged compared with the previous quarter, and reached 71.7% in the entire population, 76.9% among **males** and 66.6% among **females**. (Detailed figures can be found in Table 1.23 in the "[Quarterly Labour Force Survey – Labour Force and Wages Statistics](#)" on the website).

The number of **employees working part time involuntarily** (i.e., those who searched for full-time or additional work but did not find it) rose to approximately 110,000 in the 1<sup>st</sup> quarter of 2011 (a rise of 3.4% compared with the previous quarter), and their share out of all employed persons reached 3.7% compared with 3.6% in the previous quarter. The share of **males working part time involuntarily**, out of all employed males, reached 1.8%; and the share of **females working part time involuntarily**, out of all employed females, reached 5.8% in the 1<sup>st</sup> quarter of 2011. (Detailed figures can be found in Table 2.9 in the "[Quarterly Labour Force Survey – Labour Force and Wages Statistics](#)" on the website).

#### **Civilian labour force characteristics by district of residence**

(Detailed figures can be found in Tables 1.11-1.16 in the "[Quarterly Labour Force Survey – Labour Force and Wages Statistics](#)" on the website).

**The unemployment rate among persons aged 15 and over** declined in the 1<sup>st</sup> quarter of 2011 in most districts compared with the previous quarter, and reached 6.3% in the **Northern District**, 5.8% in the **Haifa District**, 5.1% in the **Tel Aviv District**, and 7.5% in the **Southern District**. The unemployment rate rose in the **Jerusalem District** to 6.2% and to 5.2% in the **Central District**.

**The participation rate among persons aged 15 and over in the civilian labour force** declined in most districts in the 1<sup>st</sup> quarter of 2011 compared with the previous quarter, and reached 44.9% in the **Jerusalem District**, 50.6% in the **Northern District**, 62.7% in the **Tel Aviv District**, and 55.3% in the **Southern District**. The participation rate in the civilian labour force rose in the **Haifa District** to 57.0% and to 64.2% in the **Central District**.

The employment rate among persons aged 15 and over in the 1<sup>st</sup> quarter of 2011 reached 42.1% in the **Jerusalem District** (compared with 45.2% in the previous quarter), 47.4% in the **Northern District** (same as the previous quarter), 53.7% in the **Haifa District** (compared with 51.6% in the previous quarter), 60.9% in the **Central District** (compared with 60.4% in the previous quarter), 59.5% in the **Tel Aviv District** (same as the previous quarter), and 51.2% in the **Southern District** (compared with 51.0% in the previous quarter).

### Employed persons by industry

The number of employed persons rose by 14,800 in the 1<sup>st</sup> quarter of 2011; in most industries the number of employed persons declined, and in others it rose. The greatest decline occurred in **Construction** and in **Services for households by domestic personnel**, approximately 6,000 employed persons each, and the number of employed persons in these two industries in the 1<sup>st</sup> quarter of 2011 reached approximately 158,000 and 53,000 respectively. The number of employed persons in **Agriculture**, in **Wholesale and Retail Trade and Repairs** and in **Banking, Insurance and Other Financial Institutions**, declined by approximately 4,000 each, and the number of employed persons in each of these industries reached approximately 41,000, 398,000 and 115,000 respectively.

An addition of approximately 11,000 employed persons occurred in **Education**, and the number of employed persons in the 1<sup>st</sup> quarter of 2011 in this industry reached approximately 387,000. An addition of approximately 6,000 employed persons occurred in **Public Administration**, an addition of approximately 5,000 employed persons occurred in **Transport, Storage and Communications**, and an addition of approximately 4,000 employed persons occurred in **Manufacturing**, and the number of employed persons in these industries reached approximately 147,000, 200,000 and 416,000 respectively. An addition of approximately 3,000 employed persons occurred in **Community, Social, Personal and Other Services** and the number of employed persons in the 1<sup>st</sup> quarter of 2011 in this industry reached approximately 156,000.

A similar trend can be observed among **employees**. The number of **employees** rose in the 1<sup>st</sup> quarter of 2011 by 15,000 and reached 2.617 million employees (compared with 2.602 million in the last quarter of 2010). The greatest rise occurred in **Education**, a rise of approximately 11,000 employees, and in **Public Administration**, a rise of approximately 9,000 employees, and the number of employees in these two industries reached approximately 369,000 and 145,000 respectively. The greatest declines occurred in **Construction**, a decline of approximately 6,000 employees, and in **Services for households by domestic personnel**, a decline of approximately 4,000 employees, and the number of employees in these two industries was approximately 123,000 and 48,000, respectively.

**The average weekly number of work hours per employed person** rose to 36.8 in the 1<sup>st</sup> quarter of 2011 (compared with 36.6 hours in the last quarter of 2010). **The average weekly number of work hours per employee** rose to 36.4 in the 1<sup>st</sup> quarter of 2011 (compared with 36.3 hours in the last quarter of 2010).

### **Employed persons by occupations**

The greatest rise in the number of employed persons occurred among **manufacturing, construction and other skilled workers** – an addition of approximately 23,000, and the number of employed persons in the 1<sup>st</sup> quarter of 2011 in this occupational group reached approximately 506,000. An addition of approximately 2,000 employed persons occurred among **managers** and **clerical workers**, and the number of employed persons in the 1<sup>st</sup> quarter of 2011 in these two occupational groups reached approximately 212,000 and 480,000, respectively.

The greatest decline of approximately 7,000 employed persons occurred among **unskilled workers**, and the number of employed persons in the 1<sup>st</sup> quarter of 2011 in this occupational group reached approximately 226,000. A decline of approximately 4,000 employed persons occurred among **academic professionals** and the number of employed persons in this occupational group reached approximately 437,000. A decline of approximately 3,000 employed persons occurred among **skilled agricultural workers** and the number of employed persons in this occupational group reached approximately 32,000.

Among **employees**, an addition of approximately 32,000 employees occurred among **manufacturing, construction and other skilled workers**, and an addition of approximately 3,000 employees occurred among **clerical workers** and the number of employees in the 1<sup>st</sup> quarter of 2011 in these two occupational groups reached approximately 428,000 and 474,000 respectively. On the other hand, a decline of approximately 8,000 employees occurred among **agents, sales workers and service workers**, and the number of employees in this occupational group reached approximately 507,000, and a decline of approximately 7,000 employees occurred among **academic professionals**, and among **unskilled workers** and the number of employees in these two occupational groups in the 1<sup>st</sup> quarter of 2011 reached approximately 372,000 and 217,000 respectively.

By occupations, the highest **average number of weekly work hours per employed person** was among **managers** – 44.2, among **skilled agricultural workers** – 43.0 and among **manufacturing, construction and other skilled workers** - 42.8. The lowest **average number of weekly work hours per employed person** was among **associate professionals and technicians** – 32.0.

Among employees a similar picture appears. The highest **average number of weekly work hours per employee** was among **managers** – 43.8, among **manufacturing, construction and other skilled workers** – 43.0, and among **skilled agricultural workers** – 39.3. The lowest **average number of weekly work hours per employee** was among **associate professionals and technicians** – 32.1.

- Additional figures on this subject appear in the "Quarterly Labour Force Survey – Labour Force and Wages statistics" on the Central Bureau of Statistics website: [www.cbs.gov.il](http://www.cbs.gov.il).
