## **PREFACE**

This publication presents data on persons licenced to drive in Israel at the end of 2020. The data in this publication, as in publications on the same topic from previous years, are based on processing conducted by the Central Bureau of Statistics using the file of registered drivers of the Licencing Office of the Ministry of Transport.

The publication includes detailed tables on the topic of persons licenced to drive in Israel (persons having a driver's licence) by various characteristics: type of vehicle they are licenced to drive, year their licence was first issued, population group, sex, age, locality of residence and driving restrictions.

The publication includes a comparative table for previous years.

We would like to thank the Department of Information Systems of the Ministry of Transport for putting the file at our disposal.

# **INTRODUCTION**

## 1. General

The Central Bureau of Statistics publishes yearly data on persons licenced to drive in Israel at the end of 2020. The data include information on the type of vehicle on which they are licenced to drive, the year the licence was first issued, sex, age, district, sub-district and locality of residence, driving restrictions and additional characteristics.

The Central Bureau of Statistics' database is based on a yearly administrative file received each year from the Ministry of Transport.

This publication also includes a comparative table for previous years.

## 2. Main Findings

### Persons licenced to drive in Israel and their share in the population

At the end of 2020, the number of persons licenced to drive motor vehicles reached approximately 4,621,900. During that year, the number of persons licenced to drive increased by 101,000; i.e., an increase of 2.2% compared with the end of 2019, while the population age 16 or over increased by only 1.8% during the same period.

The average number of persons licenced to drive per motor vehicle was 1.3 (similar to 2019).

The number of persons licenced to drive per one thousand residents reached 506 at the end of 2020; i.e., one licence-holder for every 2.0 residents, or one licence-holder for every 1.4 residents age 16 or over (as in 2019).

### Licensed to drive,<sup>1</sup> by type of vehicle

In 2020, there were approximately 4,621,900 persons licenced to drive a private car or a commercial vehicle with a gross weight of up to 3.5 tons (up to 4 tons for those whose licence was issued before 2007); approximately 515,000 were licenced to drive trucks with a gross weight over 3.5 tons, of which approximately 155,000 were licenced to drive a truck with a gross weight of over 12 tons; approximately 622,000 were licenced to drive motorcycles; approximately 113,000 were licenced to drive a taxi; approximately 80,000 were licenced to drive a bus;<sup>2</sup> and approximately 46,000 were licenced to drive a road tractor.

In non-Jewish localities with 10,000 and more residents, the relative share of those licenced to drive a truck of all persons licenced to drive is greater than the

national average. In the localities of Kuseife and Laqye the relative share was about 44%. In the localities of Rahat, Hura and Ar'ara-BaNegev, it was 41% (the national average is 11.2%). The relative share of those licenced to drive a motorcycle was high in Tel Aviv-Yafo, Giv'atayim, Azor, Ramat Gan and Elat, and reached 22%–23% (the national average is 13.5%). The relative share of persons licenced to drive a taxi was high in the localities of Kuseife, Elat, Kafar Qasem and Arad reached 6%–9% (the national average is 2.4%).

### **Persons licenced to drive,<sup>1</sup> by year the licence was first issued, age and sex**

Similar to the previous year, approximately 84% of all persons licenced to drive have had a licence for more than five years (i.e., the licence was first issued prior to 2016), and 7.4% have had a licence for less than two years (i.e., the licence was issued in 2019-2020).

The distribution of persons licenced to drive according to age shows that 105,700 (2.3%) are aged 18 or under, and approximately 612,000 (13.2%) are aged 65 or over, of which approximately 169,000 (3.7%) are aged 75 or over.

Approximately 82% of the population in the age group 25–54 are licenced to drive, whereas in the age group 65 and older, only approximately 55% are licenced to drive.

The number of women who are licenced to drive was approximately 2,056,000 at the end of 2020 (an increase of 2.7% compared with the end of 2019). Their share of the population of persons licenced to drive increased from 42% ten years ago to 44% in 2020. The share of women drivers among the total population of women age 16 or over is 62%.

40.0% of persons licenced to drive a private car were issued their licence before the age 18 and another 34.8% were between the ages of 19–24. 0.2% of the drivers were issued their licence being over the age 65.

Approximately 18% of the persons licenced to drive hold a licence for more than one type of vehicle (for example: a private car and a truck or a private car and a motorcycle). Approximately 30% of the men licenced to drive hold a licence for more than one type of vehicle. Of the men that hold a licence for more than one type of vehicle, 27% were issued an additional licence for a different type of vehicle than the first licence within 1–2 years, and another 28% were issued an additional licence 3–5 years later. Of the women licenced to drive, only 4% hold a licence for more than one type of vehicle, of which 23% were issued an additional licence within 1-2 years of being issued their first licence, and 33% were issued an additional licence within 3–5 years.

---

<sup>1</sup> Some are licenced to drive in several types of vehicles.

## Driving restrictions

Approximately 39% of all persons licenced to drive have some type of driving restriction. The main restriction is the requirement to wear glasses or contact lenses while driving (approximately 32% of all licenced to drive have this driving restriction).

## 3. Terms, Definitions and Explanations

**Licenced to drive:** The entire population of persons with Israeli licences who had a valid driver's licence, or a licence which expired during the previous year. Does not include persons licenced to drive only tractors and/or agricultural vehicles.

**Licenced to drive, by type of vehicle:** The data in the tables by type of vehicle do not sum up to the grand total, since some persons are licenced to drive more than one type of vehicle.

**The classification of licence categories matches the European classification.**

- **B** – Licenced to drive a **private car** – all those who are licenced to drive a **private or commercial vehicle** whose gross weight is **up to 3.5 tons**, and for those whose licence was issued before 2007, **up to 4.0 tons**. The minimum age to receive this licence is 16 years and 9 months.
- **C1** – Licenced to drive a **truck** whose gross weight is **up to 12 tons**, and for those whose licence was issued before 2007, **up to 15 tons**. The minimum age to receive this licence is 18 years.
- **C** – Licenced to drive a **truck** whose gross weight is **over 12 tons**. The minimum age to receive this licence is 19 years.
- **D1** – Licenced to drive a **taxi**. The minimum age to receive this licence is 21 years.
- **D** – Licenced to drive a **bus**. The minimum age to receive this licence is 21 years with at least two years with licence B or C.
- **E** – Licenced to drive a **road tractor**. The minimum age to receive this licence is 20 years with at least one year with licence C.

- **Motorcycle**

**A2** – Licenced to drive a motorcycle with **up to 125 cc** (up to 14.6 horsepower). The minimum age to receive this licence is 16 years.

**A1** – Licenced to drive a motorcycle with **up to 47.46 horsepower** (up to 35 kilowatt), and for those whose licence was issued before 2007, **up to 500 cc**. The minimum age to receive this licence is 18 years.

**A** – Licenced to drive a motorcycle with **over 47.46 horsepower** (over 35 kilowatt), and for those whose licence was issued before 2007, **over 500 cc**. The minimum age to receive this licence is 21 years.

**Road motor vehicle:** A land road vehicle that runs on mechanical power and that is intended for carrying persons or goods or for hauling a trailer. Excluding land motor vehicles running on rails.

**Private car:** A motor vehicle designed to transport up to 9 passengers in addition to the driver and is not a public or a commercial vehicle or a motorcycle (a person licensed to drive a private car – see above).

**Truck:** A road motor vehicle designed to carry goods. As of 1978, excluding dual-purpose vehicle (that were transferred to the category of private cars). As of 1993, excluding minibuses (which were defined as a separate type of vehicle). As of 1996, excluding special trucks for passengers (which were transferred to the category of buses).

The total number of persons licenced to drive trucks whose gross weight is up to 12 tons is identical to the total number of all persons licenced to drive a truck. The number of persons licenced to drive **only** a truck whose weight is **up to** 12 tons, is derived by subtracting the number of those licenced to drive truck whose weight is over 12 tons from the total number.

**Motorcycle:** A motor vehicle with two or three wheels, described in its licence as a motorcycle, including tricycle and motorcycle with sidecar.

In 1993 the Licencing Authority reduced the number of categories of driver's licences for motorcycles (two-wheeled or three-wheeled motor vehicles) to three, according to engine capacity: up to 50 cc, 51-500 cc and over 500 cc. In practical terms, a person licenced before to drive a motorcycle whose engine capacity is up to 250 cc (motor scooter), is allowed, as of 1993, to drive a motorcycle whose engine capacity is up to 500 cc. This change in the definition of categories of licences caused a significant increase in 1993 in the number of persons licenced to drive, relative to the number of motorcycles of the same engine capacity.

In 2007, following adjustments made in order to suit the European classifications, a change was made in the 3 categories that were introduced in 1993, as

described above. For example in category A1 included are all persons licenced to drive who were issued a motorcycle licence starting in 2007 according to the new categories, and also those licenced to drive a motorcycle who were issued a licence up to 2006 and were licenced to drive a motorcycle with an engine capacity of up to 500 cc.

**Year licence was issued:**

- **Vehicles with 4 wheels and more** – The year that the licence was first issued, with no consideration of the type of vehicle for which the licence was issued. For example: 9,511 persons licenced to drive a truck were first issued their licence in 2006 for a private car or directly for a truck (see Table 2).
- **Vehicles with less than 4 wheels (motorcycle)** – year highest licence category was issued.

**Driving Restriction:** A restriction that applies to a driver while driving and appears in the driver's licence. A driver can have several restrictions. Examples of restriction are wearing glasses or contact lenses while driving, driving a vehicle that has special provisions for a disabled person, and restrictions due to regulations applying to a "New Driver". As of July 1995, the "New Driver" restriction is for a period of two years.

**District and Sub-District:** The districts and sub-districts are defined according to the official administrative division of the State of Israel, which includes 6 districts and 15 sub-districts. Including Israeli localities in the Judea and Samaria Area.

**Population Group:**

- **Jews**
- **Arabs:** Moslems, Arab Christians and Druze
- **Total:** Also includes non-Arab Christians, members of other religions and not classified by religion in the Ministry of Interior.

## 4. Methodology

### A. The investigated population

The entire population of persons with Israeli licences to drive, who had a valid driver's licence, or a licence which expired during the previous year. Does not include persons licenced to drive only tractors and/or agricultural vehicles.

### B. The investigated period

The data in this publication refers to all persons licenced to drive on 31 December 2020, and also includes a historical table (Table 1).

### C. Method of investigation

The Central Bureau of Statistics' database is based on a yearly administrative file received each year from the Licencing Authority of the Ministry of Transport.

### D. Handling of data

The data received the Central Bureau of Statistics goes through a process of reception, checking and data processing.

### E. Reliability of data

The number of persons licenced to drive that appears in this publication is census-based (a count of all persons licenced to drive in Israel). The data is not biased by sampling errors; however there may be mistakes in registration, symbols, data entry and processing.

The data also includes persons with Israeli licences who do not reside permanently in Israel, as well as foreign persons licenced to drive who reside permanently in Israel.

## EXPLANATORY NOTES

### Area Covered by the Statistical Data

The statistical data relate to the economic territory of the State of Israel, unless otherwise stated.

**A. The economic territory of a country** (according to the definition of the OECD-SNA. For a detailed definition, see: OECD, Glossary of Statistical Terms): The economic territory of a country consists of the geographic territory administered by a government within which persons, goods and capital circulate freely.

**The economic territory of the State of Israel:** According to this definition, the economic territory of the State of Israel is as indicated in paragraph B below.

**B. District and Sub-District:**

The districts and sub-districts are defined according to the official administrative division of the State of Israel, which includes 6 districts and 15 sub-districts. Including Israeli localities in the Judea and Samaria Area.

(1) The classification was altered twice: until 1992, 51-250 cc and 251+cc, and from 1993 till 2006, 51-500 cc and 501+ cc. As of 2007, up to 33 horsepower and over 33 horsepower. See explanation in chapter "Terms, Definitions and Explanations", paragraph "Motorcycle".

(2) Number of licenced to drive a specific type of vehicle divided by number of vehicles of that type.

(3) Until 2006, number of licenced to drive divided by number of trucks over 4 tons (instead of over 3.5 tons).

(4) Until 2006, number of licenced to drive divided by number of trucks over 15 tons (instead of over 12 tons).

(1) הסיווג השתנה פעמיים: עד 1992, 250-51 סמ"ק ו-251+ סמ"ק, ומ-1993 עד 2006, 500-51 סמ"ק ו-501+ סמ"ק. החל ב-2007, עד 33 כוח סוס ומעל 33 כוח סוס. ראו הסבר בפרק "מונחים, הגדרות והסברים", בסעיף "אופנוע".

(2) מספר המורשים לנהוג בכלי רכב מסוים מחולק במספר כלי הרכב מאותו סוג.

(3) עד 2006, מספר המורשים לנהוג מחולק במספר המשאיות מעל 4 טונות (במקום מעל 3.5 טונות).

(4) עד 2006, מספר המורשים לנהוג מחולק במספר המשאיות מעל 15 טונות (במקום מעל 12 טונות).
